- ✓ Excellent radiopacity
- ✓ Light cure
- ✓ Superb wear resistance
- ✓ Class leading aesthetics
- ✓ Available in 12 shades
- ✓ Universal use, posterior & anterior

reliaFIL LC Universal Light-Cure Composite Restorative System

reliaFIL LC is AHL's universal light cured composite filling material. Using advanced particle technology we have developed a "nano hybrid" composite material with excellent wear resistance and superb aesthetics. reliaFIL LC received a 4-star rating from the Dental Advisor.

Advanced Healthcare's new restorative is an advanced nano hybrid composite for both anterior and posterior use. The material features excellent wear resistance, aesthetics and radiopacity twice that of dentine. The material is available in a range of Vita® shades.

Indications

- Anterior and posterior cavities – Classes I, II, III, IV and V
- Wedge shaped defects and root caries
- Direct laminate veneers.
- Core build ups
- Repair of fractured laminate veneer and porcelain

Features

- Excellent radiopacity
- Light cure
- Superb wear resistance
- Class leading aesthetics
- 12 VITA® shades
- Universal use, posterior & anterior

Advantages

- Shows on X-rays
- Command setting
- Long lasting restorations
- Close to natural tooth colour
- Good colour matching
- Suitable for all classes of cavity
