## proKlene Prophylaxis Paste Regular

A selected blend of abrasives to ensure optimum removal of plaque and tartar without excessive abrasion to enamel.

AHL's regular prophypastes use a blend of abrasives selected to ensure optimum removal of plaque and tartar without any appreciable abrasion to enamel.

The thixotropic properties of the paste are carefully controlled to ensure easy application without undesirable spattering at the rotation speeds required for prophylaxis. The regular prophypaste contains only natural flavourings, is fluoride free and is available in medium and course grades.

Available in	Code
50gm Regular Coarse Orange	AH1425
50gm Regular Medium Mint	AH1426
250gm Regular Coarse Orange	AH1400
